Dear Gene:

The American Kennel Club Canine Health Foundation has received your gift of \$150.00 in memory of Ron DeLozier. We are grateful that the Bahia Sur Kennel Club decided to recognize Ron DeLozier in such a meaningful way. An acknowledgment of your gift was sent to Ms. Margaret Williamson.

Your support is making a significant impact on canine health:

- This year the AKC Canine Health Foundation is funding 126 research projects at 46 veterinary schools and research institutions.
- Studies are underway on cancer, epilepsy, endocrine disorders, eye disease, reproductive disorders, and many other areas of concern identified by dog lovers like you.
- We are working to find treatments, cures and ways to prevent and diagnose disease so that all dogs live longer, healthier lives.
- Because dogs and humans share much of the same genetic make-up and frequently the same physical environment we are providing insights into human disease.

We are delighted to have you as a partner in the fight against canine disease. To learn more about the AKC Canine Health Foundation and to see a complete list of funded research please visit our website www.akcchf.org or call us at 1-888-682-9696. Thank you again for your support.

Sincerely,

Terry T. Warren, Ph.D., J.D.
CEO/General Counsel
