

CULTURE-URINE W/SENSITIVITY - Details

 About This Test

Comments from the Doctor's Office

This is a normal bacteria that we sometimes find in the urine. I would not recommend treatment unless you are having symptoms of a urinary tract infection.

Component Results

Component	Your Value	Standard Range
Battery Name	URINE CULTURE	
Specimen Description	URINE	
Special Requests	NONE	
Culture	<100,000 organisms/ml LACTOBACILLUS SPECIES <10,000 organisms/ml CONTAMINANT	
Report Status	FINAL 01/06/2018
