

Internal Medicine

10/27/2021

Patient: Carine Ann De Lozier
Med Rec #: 0321645
DOB: 3/5/1961

Dear Carine A. De Lozier:

There are times when a provider to patient relationship becomes ineffective. Our recommendation is for you to seek out another health care provider at this time. We will provide urgent and necessary care for you for the next 30 days, and will also assist you in forwarding your medical records and history to the primary care provider you choose going forward to ensure continuum of care for you.

If you have any questions, please contact our office at the number listed below.

Sincerely,

Lesli Jackson, Practice Manager
